As the title suggests I've taken it upon myself to learn Jarrod Radnich's "Pirates of the Caribbean" cover and I was wondering if those who have attempted it could give me some pointers. I've been at it for a couple weeks (although I took a break for finals) and I've made it as far as bar 39 but my issues are more to do with bars 9-18. This is the point when my left hand is jumping full octaves to four finger chords and I'm finding that I either hesitate between the chord change or I accidentally bump several black keys as I come down. I should mention that I'm not a beginner (I've been playing for the last 13 years and have some professional certification) but I haven't had a piece that required my left hand to move so quickly and land with this much force and precision. I'm sure someone here must have attempted/completed the song so are there any suggestions on making my chord changes smoother?TL:DR: How can I improve my precision in quick chord changes?Page 2 5 comments We've detected that JavaScript is disabled in this browser. Help Center This intense piano solo arrangement is based on several melodies by Klaus Badelt from the movie, Pirates of the Caribbean. It's one of the featured arrangements composed by composer and virtuoso pianist, Jarrod Radnich, for Disneyland's "The Dream Home of the Future" exhibit in Tomorrowland, and performed here exclusively for PianoDisc!. Radnich's performance was part of the Tomorrowland exhibit's grand opening and plays for over 3,000 captivated visitors a day. It is filled with flourishes, high-intensity rhythms, and the incredible virtuosic technique for which Jarrod Radnich is best known.
